

D.1. Detailed list of mandatory and recommended survey requirements for all equipment, including any specific OEM requirements.

All permanent mooring equipment is surveyed by the vessel's Classification Society during annual, intermediate, periodical and renewal surveys.

Attached Appendix D 1 contains following –

- List of surveys outlining permanent mooring equipment surveyed
- Above list supplemented by, or referenced to, makers' manuals indicating their specific requirements.
- List of reference to the Vessel's PMS indicating mandatory and recommended survey requirements

The Company has developed a Programme for line maintenance, inspection and retirement. Inspection and discard criteria are based on manufacturer guidance and operational experience.
